Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. FROM THE CREATOR OF 50 STEM LABS! In this new book, I created a set of STEAM thematic units plans. Each unit is a single page with a set of suggested interrelated activities for Science, Technology, Engineering, Art, and Math. These are ideas for each discipline, NOT detailed lesson plans and step-by-step instructions. They re for educators that can build from a starting point. Unlike other series and authors who slap together an arts and crafts activity and call it STEM/STEAM, this one actually has suggestions for how to use ALL 5 disciplines for EACH project! Add technology to your class! Do career studies, add music. the list goes on! Create your own grading rubrics and adjust for your grade level. This is AWESOME for block scheduling, gifted, and older kids who are used to doing projects. Projects included cannot be find in any other volume, set or bundle right now.
