

## Inside Words: Tools for Teaching Academic Vocabulary, Grades 4-12

By Janet Allen

Stenhouse Publishers, United States, 2007. Microfilm. Book Condition: New. 234 x 185 mm. Language: English . Brand New Book. We ve learned a lot in recent years about the important role vocabulary plays in making meaning, yet many teachers still struggle with vocabulary instruction that goes beyond weekly word lists. Effective vocabulary instruction is particularly vital in the content areas, where the specialized language used by insiders often creates a barrier to understanding for those new to the subjects. In this book Janet Allen merges recent research and key content-area teaching strategies to show teachers how to help students understand the academic vocabulary found in textbooks, tests, articles, and other informational texts. Each instructional tool is listed alphabetically along with its purpose: building background knowledge; teaching words that are critical to comprehension; providing support during reading and writing; developing a conceptual framework; and assessing students understanding of words and concepts. Inside Words builds on Janet s previous books Words, Words, Words and Tools for Teaching Content Literacy to provide a much-needed middle and secondary school resource for teaching vocabulary, not only in the language arts, but in all of the content areas.
