

Basic Chemistry (teaching institutions of higher learning for the 21st Century)

Filesize: 6.05 MB

Reviews

It is great and fantastic. I actually have read and so i am certain that i am going to going to go through once again yet again in the future. I realized this ebook from my dad and i encouraged this book to find out.

(Dr. Kayden Gerlach)

BASIC CHEMISTRY (TEACHING INSTITUTIONS OF HIGHER LEARNING FOR THE 21ST CENTURY)

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 432 Publisher: South China University of Pub. Date :2007-06-01 first edition this book to present the new situation of higher education and training objectives for the 21st century demands as the guiding ideology. combined with the related disciplines the basic requirements of chemical knowledge. to basic concepts. basic principles and methods. focusing on the practical application of knowledge points to the connection means. a modular structure to write. This book chapter from the inorganic. analytical papers. organic articles and appendices of four modules. Inorganic articles. including the nature of the solution. the chemical reaction rate and chemical balance. electrolyte solution and the dissociation equilibrium. oxidation-reduction and electrochemistry. atomic structure and molecular structure of coordination compounds. the important elements and compounds; analysis of articles. including quantitative analysis. and data error processing. overview and analysis of pH titration titration. spectrophotometry. briefly. the analysis process; organic compounds papers including the concept. structure. bonding. properties. reaction type. open-chain hydrocarbons. hydrocarbons. halogenated hydrocarbons. alcohols . phenols. ethers. aldehydes. ketones. quinones. carboxylic acids and their derivatives. amines. and parathion-containing organic compounds. carbohydrates; appendix including chemical and everyday life. chemical energy. chemical and environmental. chemical and life. This book can be used as chemical industry. light industry. food. environment. biology. sports and other related professional basic course materials. but also for related personnel reference reading. Contents: Inorganic first chapter Chapter 1 Chapter 2 solution and colloid chemical reaction rate and chemical equilibrium electrolyte solution Chapter 3 Chapter 4 Chapter oxidation-reduction reaction the atomic structure of the s bond with Chapter 6. Chapter 7 of the molecular structure of coordination compounds. Chapter 8 analyzes the important elements and compounds. chapter Chapter 1 second error of...
