

## Probabilistic Timed Automata for Security Analysis and Design: Ph.D. Thesis - University of Pisa (Italy)

By Angelo Troina

CreateSpace Independent Publishing Platform. Paperback. Condition: New. This item is printed on demand. 146 pages. Dimensions: 11.0in. x 8.5in. x 0.3in. The usefulness of formal methods for the description and verification of complex systems is nowadays widely accepted. While some system properties can be studied in a non-timed and non-probabilistic setting, others, such as quantitative security properties, system performance and reliability properties, require a timed and probabilistic description of the system. This thesis focuses on methods for the formal modeling of probabilistic timed systems, and on algorithms for the automated verification of their properties. The models considered describe the behavior of a system in terms of time and probability, and the formal description languages used are based on extensions of Timed Automata, Markov Decision Processes and combinations of them. Bisimulation relations and model checking are used to define and verify security properties of probabilistic timed systems. This item ships from La Vergne, TN. Paperback.

### Reviews

*The ebook is straightforward in go through preferable to recognize. It typically does not charge too much. Its been designed in an exceptionally straightforward way and it is just following i finished reading this book where basically altered me, affect the way i really believe.*

-- **Dr. Reta Murphy**

*It becomes an amazing pdf which i actually have at any time read through. This can be for all those who statte there had not been a worthy of reading through. You wont sense monotony at anytime of your own time (that's what catalogues are for relating to should you check with me).*

-- **Claud Kris**
