PERFORMANCE OPTIMIZATION IN NETWORK-ON-CHIP (NOC) ARCHITECTURE

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | The escalating complexity of System-on-Chips (SoCs) has resulted bottleneck network communications within the chips thus diminishing its performance. Networks-on-Chip (NoC) was proposed as a paradigm to solve these complications in network communications. As for NoC, the issue arises in designing the topological structure of the on-chip network which fulfilled the application requirements. Therefore, Network Partitioning technique is proposed to obtain the optimal design of networks based on its performance. The performance of...
