15X15 - CONTEMPORARY GREEN ARCHITECTURE IN CHINA AND SERBIA (PAPERBACK)

Design Media Publishing Ltd, Hong Kong, 2015. Paperback. Condition: New. Language: English . Brand New Book. Green architecture is a hot global topic and more people than ever before are aware of the importance surrounding sustainable development. Both architects from China and Serbia are searching for efficient design and construction technology for green architecture, and have created various building styles from their findings. In this book, 15 Chinese architects and 15 Serbian architects introduced low-carbon and environment-protection technology to people s daily lives. This has been done through different building types, and by establishing a bridge between China and the Middle Europe for green architecture communication and development.
